COLLINS CONDOMINIUMS

18404 Collins St, Tarzana, CA 91356 EMPIRE USA, LLC.

PROJECT INFORMATION:

· PROJECT TYPE:

MULTIFAMILY RESIDENTIAL (CONDOMINIUM)

· Lot Areas:

Dol Border = 43,599 sq. ft. (1.0009 acres). Gross (to centerline of street) = 46,599 sq. ft. (1.0698 acres)

Net (same as dot border no dedications) = 43,599 sq. ft. (1.0009 acres)

· Zoning: Existing = R3-1

Proposed = no change General Plan: Medium Residential 18404 Collins Street

· Project Address:

Density

The unit count is 73 which includes 43,599/800

= 54.50 units by right and 19.08 units by 35% density bonus. Note: On Architectural Concept plan the Architect rounded up to

74 units but normally in subdivision work they do not allow this. Two spaces per unit plus 1/4 guest space per unit for a total of

Parking;

73 x 2 + 73 x ¼ = 165 spaces.

Building Coverage;

The entire width of the site will have an underground parking garage built to the property lines and will cover all but 22.5' of the length of the property. The center of the building is open to the sky above the podium. The building setbacks are 15' front, 15' rear and 9' side. Therefore, the building area foot print above the podium is (406'x 82') – (18' x 348.5') =

27.019 sq. ft.

· Lot Coverage:

percent building = 27,019/43,599 x 100 = 62.0 % on podium. Landscape planters assume 6% x 43,599 = 2,616 sq. ft. Open Space per Arch Concept Plan = 21,266 sq. ft. Paved Areas = (406'x 100) - 27,019 - 2,616 = 10,965 sq. ft. which is 10,965/43,599 x 100 = 25.1%

· Tentative Tract Number: 72929.

V. Hazardous Materials and Substance	 Discharge
--------------------------------------	-------------------------------

	es the project involve the use of any hazardous materials or have hazardous substance discharge? If so, please ecify. NO
В.	Regulatory Identification Number (if known) Licensing Agency Quantity of daily discharge
VI.	Stationary Noise Clearance: A clearance may be necessary certifying the project's Equipment (e.g., air conditioning) complies with City Noise Regulations.
So	me projects may require a Noise Study. The EIR staff will inform those affected by this requirement.
VII.	Selected Information:
A.	Circulation: Identify by name all major and secondary highways and freeways within 1,000 feet of the proposed project; give the approximate distance(s): About 600 feet west is Reseda Blvd. and about 900 feet east is Etiwanda Ave.
B.	Air: All projects that are required to obtain AQMD permits (see AQMD Rules and Regulations) are required to submit written clearance from the AQMD indicating no significant impact will be created by the proposed project.*
VII	I. Mitigating Measures:
	Feasible alternatives or mitigation measures which would substantially lessen any significant adverse impact which the development may have on the environment. The impact will be minor since the proposed project will have similar density as the existing development. However, the new project will have more parking spaces than the current development project. Neighborhood is surrounded by multi-residential development; therefore, adverse effect on the neighborhood would be minimal. The project will be appropriately landscaped.
