

→ average natural slope for the project site is under 15%. Therefore, four lots is acceptable and meets the intent and purpose of the applicable General Plan.

THE DESIGN AND IMPROVEMENT OF THE PROPOSED SUBDIVISION ARE CONSISTENT WITH APPLICABLE GENERAL AND SPECIFIC PLANS.

→ The existing site is a level irregular shaped parcel that is to be subdivided into four lots fronting on Tarzana Drive and on Reseda Boulevard. The project site is located in an established neighborhood with a lot pattern consisting of similar shaped, estate sized lots with occasional flag lots. The proposed subdivision will create lot sizes consistent with the RA-1 zone. However, Footnote 5 on the Encino-Tarzana Community Plan map requires a minimum lot size of one acre, 43,560 sq.ft, for single family homes in the Very Low I Residential designation where the average natural slope exceeds 15%. Per the applicant's calculations, the average natural slope for the project site is under 15%. Therefore, four lots is acceptable and meets the intent and purpose of the applicable General Plan.

THE SITE IS PHYSICALLY SUITABLE FOR THE PROPOSED TYPE OF DEVELOPMENT.

→ The site is one of several underimproved properties in the vicinity. The project is providing an appropriate development that is consistent with the RA-1 Zone and the Very Low I Residential land use designation on the Encino - Tarzana Community Plan. However, Footnote 5 on the Encino-Tarzana Community Plan map requires a minimum lot one acre, 43,560 sq.ft, for single family homes in the Very Low I Residential designation where the average natural slope exceeds 15%. Per the applicant's calculations, the average natural slope for the project site is under 15%. Three of the four lots have a size that is greater than 43,560 square feet. The proposed Parcel C has a lot size of only 32,848 square feet. However, since the slope density is below 15% all of the four lots are consistent with the intent and purpose of the applicable General Plan.

THE SITE IS PHYSICALLY SUITABLE FOR THE PROPOSED DENSITY OF DEVELOPMENT

→ The surrounding neighborhood is zoned RA-1 and designated Very Low I Residential land use in the Encino - Tarzana Community Plan. The surrounding properties located north, south, east and west of the subject site are single family residences zoned RA. The proposed 43,562 square feet area for Parcel A, 43,568 square feet for Parcel B, 32,843 square feet for Parcel C and 43,565 square feet for Parcel D substantially exceed the number of square feet required by the RA zone. However, Footnote 5 on the Encino-Tarzana Community Plan map requires a minimum lot size of one acre, 43,560 sq.ft, for single family homes in the Very Low I Residential designation where the average natural slope exceeds 15%. The project site is a hillside. Three of the four lots have a size that is greater than 43,560 square feet. However, the proposed Parcel C has a reduced lot size of only 32,848 square feet (less than 1-acre). Per the applicant's calculations, the average natural slope for the project site is under 15%. Therefore, the requested four lots are permitted and the density of the proposed project is appropriate for its sloped site and consistent with that of adjoining single family residential developments.

The Department found that potential impacts could result from:

- ☐ Air Quality (construction);
- ☐ Biology (tree removal);
- ☐ Geology (seismic, construction);
- ☐ Hazardous Materials (construction);
- ☐ Hydrology/Water Quality (construction);
- ☐ Noise (construction);
- ☐ Public Services (fire);
- ☐ Transportation (access);
- ☐ Utilities (water, solid waste);

The Advisory Agency, to mitigate the above impacts, required **Condition Nos. 17, 18, and 19**, as conditions of approval for the Parcel Map and determined the project would not have a significant impact upon the environment. Other identified potential impacts not mitigated by these conditions are subject to existing City ordinances (Sewer Ordinance, Grading Ordinance, Flood Plain Management Specific Plan, Xeriscape Ordinance, Stormwater Ordinance, etc.) which are specifically intended to mitigate such impacts on all projects.

FINDINGS OF FACT (SUBDIVISION MAP ACT):

In connection with the approval of Parcel Map No. AA-2010-550-PMLA, the Advisory Agency of the City of Los Angeles, pursuant to Sections 66411.1 of the State of California Government Code (the Subdivision Map Act), makes the prescribed findings as follows:

THE REQUIRED IMPROVEMENTS ARE NECESSARY FOR REASONS OF PUBLIC HEALTH AND SAFETY AND ARE A NECESSARY PREREQUISITE TO THE ORDERLY DEVELOPMENT OF THE SURROUNDING AREA AND NEIGHBORHOOD.

The proposed division of land complies with such requirements as may have been established by the Subdivision Map Act (Government Code Sections 664109 et seq.) or Article 7, Section 17.50 of the Los Angeles Municipal Code (LAMC) as to area, improvement and design, floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection and other requirements of the Subdivision Map Act or said Article.

THE PROPOSED MAP AS MODIFIED IS CONSISTENT WITH APPLICABLE GENERAL AND SPECIFIC PLANS.

The adopted Encino - Tarzana Community Plan designates the subject property for Very Low I Residential density with corresponding zones of RE20, and RA. The 3.75 acre property is zoned RA-1. The proposed 43,562 square feet area for Parcel A, 43,568 square feet for Parcel B, 32,843 square feet for Parcel C and 43,565 square feet for Parcel D substantially exceed the square feet of land area required by the RA zone. However, Footnote 5 on the Encino-Tarzana Community Plan map requires a minimum lot size of one acre, 43,560 sq.ft, for single family homes in the Very Low I Residential designation where the average natural slope exceeds 15%. Per the applicant's calculations, the

- b. If ABC has determined that an eligible use is in an area of high crime or undue concentration of licenses, the City Council will need to make the finding that the issuance of the license is required for **public convenience or necessity**.

✓ **ADDITIONAL REQUIREMENTS FOR MASTER CUBs/CUXs.** In addition to all requirements detailed in the Master Land Use Application Instructions (CP-7810), applications for Master CUBs/CUXs shall include:

- A separate sheet containing a table identifying all CUB or CUX requests on the subject site, indicating: the type of alcohol permit sought; the square footage of each particular restaurant, bar or event space; the identifying address or suite/unit number corresponding to each CUB/CUX request; and (if known) the tenant-operator of each alcohol or adult entertainment establishment.
- All CUB or CUX requests on the subject site clearly identified and labeled on the plot plan and applicable floor plans, indicating: each type of alcohol permit sought; the square footage of each particular restaurant, bar or event space; and the identifying address or suite/unit number corresponding to each CUB/CUX request.

NOTE: Please consider submitting documents beyond the requirements outlined in this form. If there are other circumstances which may further a more complete understanding of the project, do not hesitate to submit such information. The documents submitted with the application and the public hearing constitute the **primary opportunity** to clarify and define the project.
